Krono[®]
Original
Laminatparkett
Made in Germany

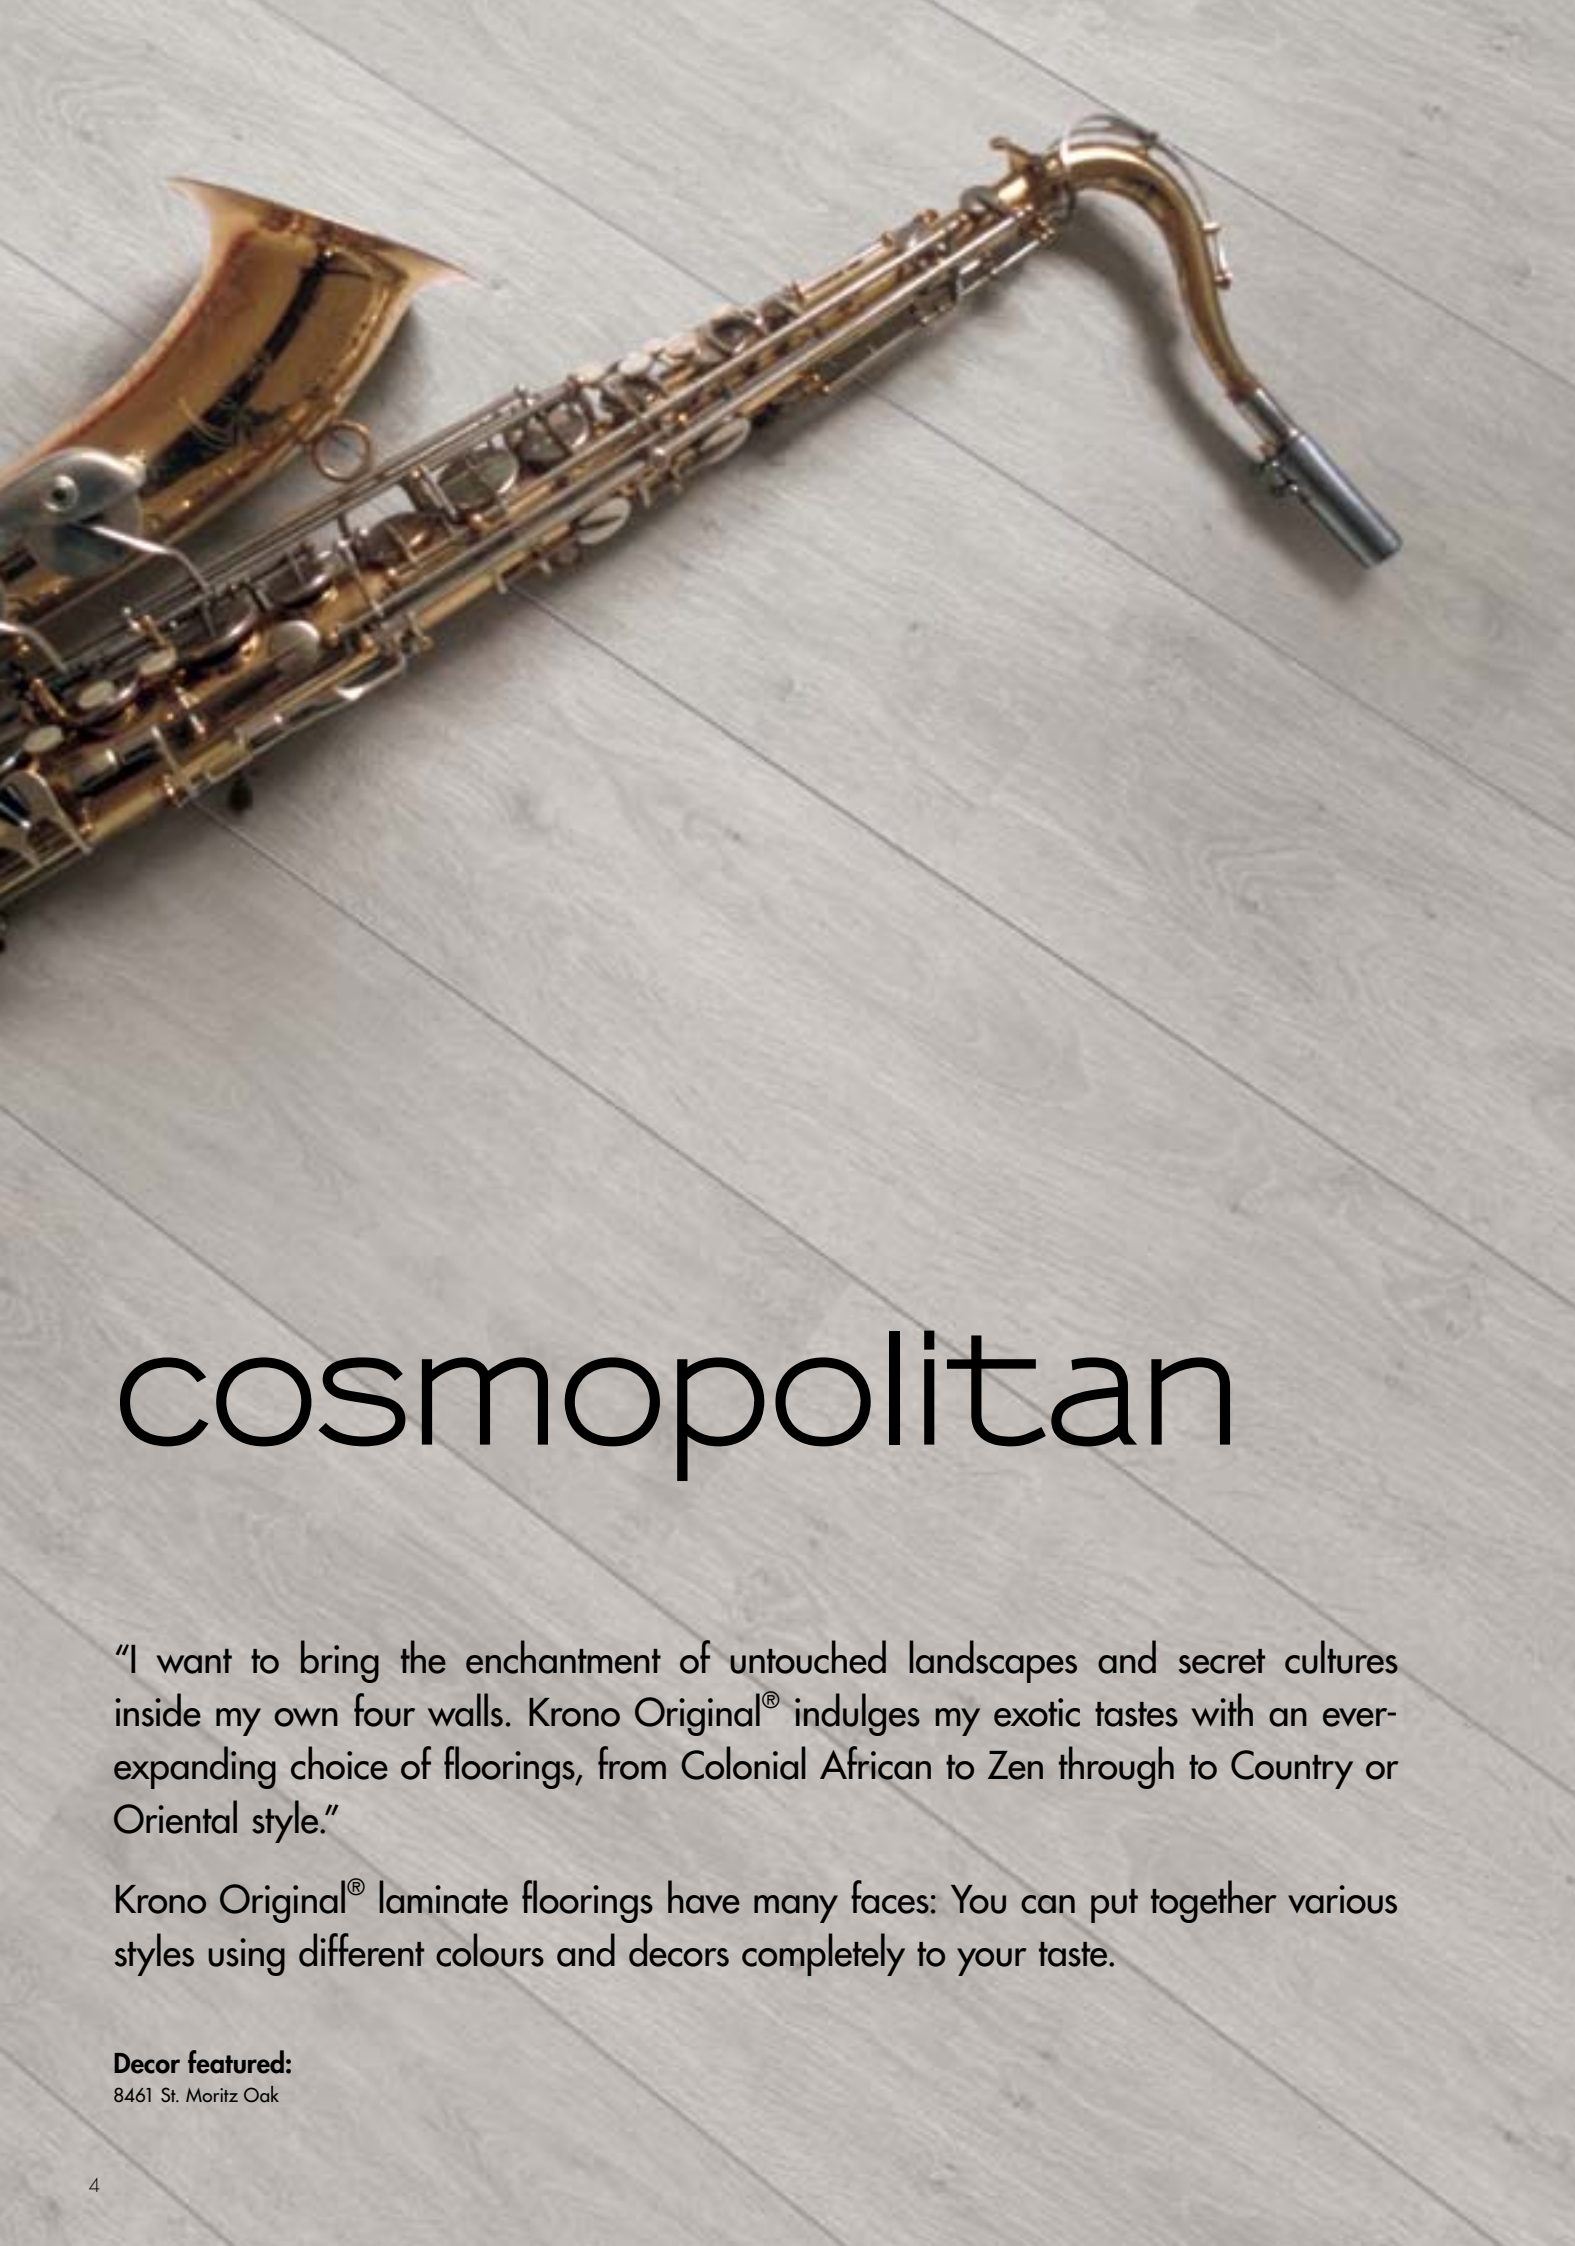

one of a kind

"I'm a unique individual, with a unique personality. A leader, not a follower. My home reflects this. I insist on surrounding myself with fabrics and furnishings that reflect my personal taste and my attitude to life. Flooring is crucial. It sets the tone as soon as you enter a room. I chose Krono Original® flooring. It has style, is easy to lay and is perfectly simple to care for. It ticks all my boxes."

Krono Original® Floors that live up to your lifestyle.

Welcome to our world

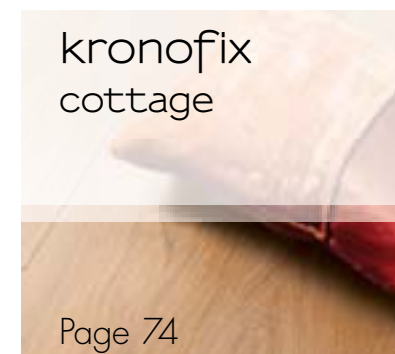

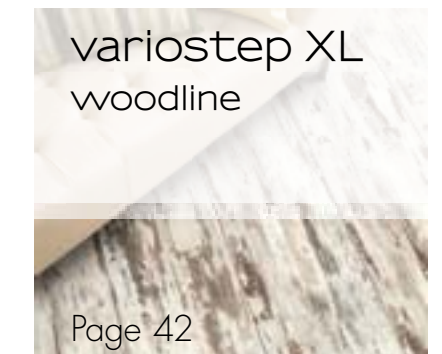

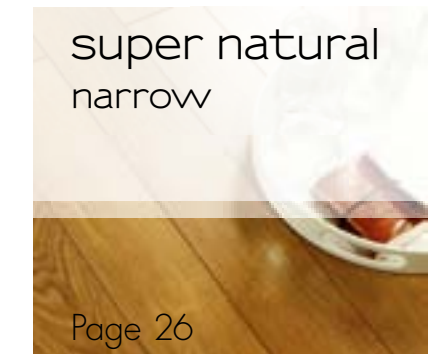

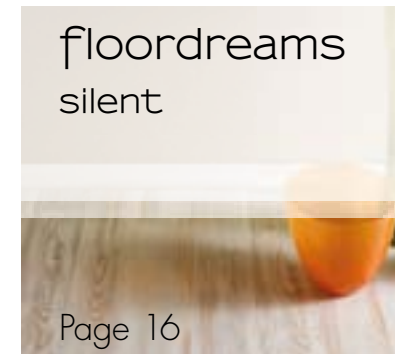

From Kronoflooring comes a world of inspiring ideas. As one of the world market leaders, we constantly develop new floors and new ranges. From beautifully reproduced wood grains to stunning imitations of stone surfaces, from a Sound Absorb System (S.A.S.) that reduces reflected sound by 50% to a panel concept that creates a seamless look with almost invisible joints, which we call Endless Beauty.

Krono Original® Features Guide

From highly acclaimed Anti-Static and Sound Absorption materials to clever click-into-place fitting, Krono Original® boasts the very latest in innovative features and top quality specifications.

That's why it's the favourite laminate flooring

Decor featured:
8574 Havana Oak

We all know that you can never judge by appearances alone. So you'll appreciate the inner qualities of our flooring. A.B.C. Anti Bacterial Coating, integrated Anti-Static equipment, and S.A.S. Sound Absorb System are just some of the inherent strengths of Krono Original®.

Guarantee

All Krono Original® laminate floors are put through a series of rigorous tests in order to comply with international quality standards, which is why we grant an extensive guarantee with every product. You can rest assured that, whatever range you choose, it's going to be easy to maintain and will give you enjoyment for many years to come.

Stain and imprint resistant

Whatever you might spill, be it red wine, oil or jam, don't panic; it can be easily removed. Krono Original® is also abrasion resilient, robust and proven to be one of the most resistant floorings available, even heavy furniture won't leave an imprint. Please use felt pads for your furniture and ensure that swivel chairs are fitted with soft castors.

Twin Clic

The Krono Original® Twin Clic system has been specifically designed to make fitting your laminate flooring as easy and hassle free as possible. The Clic and groove profiles allow individual panels to be joined together quickly with minimal tools or complications.

1clic2go

Even in hard to reach places like corners, doors and under radiators, the ingenious "1clic2go" system makes installing Krono Original® floors simpler and faster than ever. The tongue & groove joint along the length of the panel is placed in position from above and fixed flush with the adjoining panel. The panels are then securely interlocked as the patented "1clic2go" beading latches into position with an audible click. Quick. Easy. Secure.

Multi Patent Indemnity

Enjoy 100% security with multiple patent protection for all our products! In addition to the Kronoflooring patents, this Multi Patent Indemnity certificate provides extensive protective rights for VÄLINGE INNOVATION AB international and a choice of UNILIN patents worldwide. This involves assured, unrestricted product use of the glue-free click system for the trade.

A.B.C. Anti Bacterial Coating

We know that keeping your floor as clean as possible will be important to you and that means minimising the risk from germs. We can't see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result, which is why Krono Original® has introduced A.B.C., Anti Bacterial Coating that does not allow for germs to grow on your flooring.

Germs can be present on a floor from many sources such as shoes, spills or animals etc, but Krono Original® A.B.C. Anti Bacterial Coating, works alongside a hygienic cleaning regime, to create peace of mind and a healthy environment.

Endless Beauty

Continuity of decor and structure from panel to panel. In addition to almost invisible joints at the panel's short side, this feature creates the look of never ending planks and leads to a visual enlargement of your room.

Diamond Gloss

The high-quality structure with the exclusive Diamond Gloss effect is characterised by a brushed, matt surface with glistening synchronised wood pores, which reflect the light differently as you move around the floor. The gloss effect emphasises the depth of the structure and illustrates the character of natural wood perfectly.

Anti-Static

Krono Original® Anti-Static flooring incorporates an innovative layer directly below the decor, which provides complete protection against unpleasant shocks. Guaranteed lifetime integrated Anti-Static effect – well above the normally accepted standard for Anti-Static flooring (DIN EN 1815; DIN IEC 1340-4-1) classified in ASF2 class 2. In addition, these floors do not attract dust and dirt in the conventional way and are therefore incredibly easy to keep clean.

S.A.S. Sound Absorb System

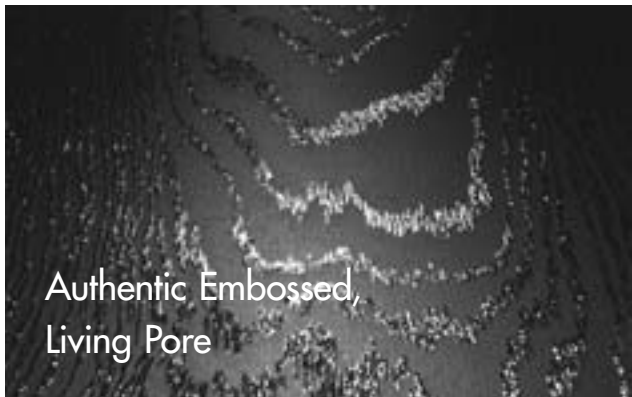

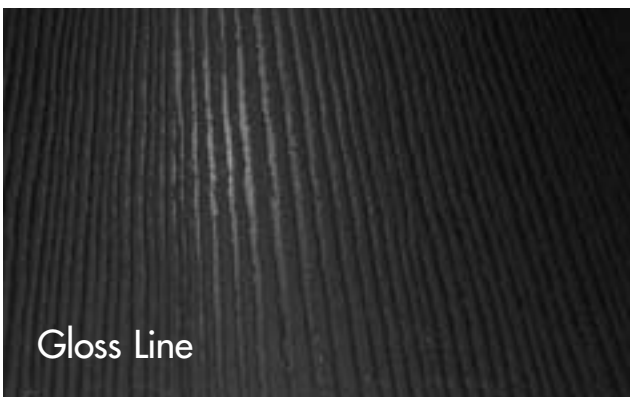

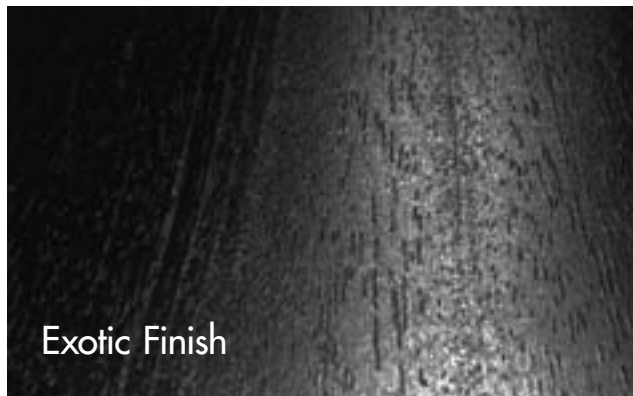

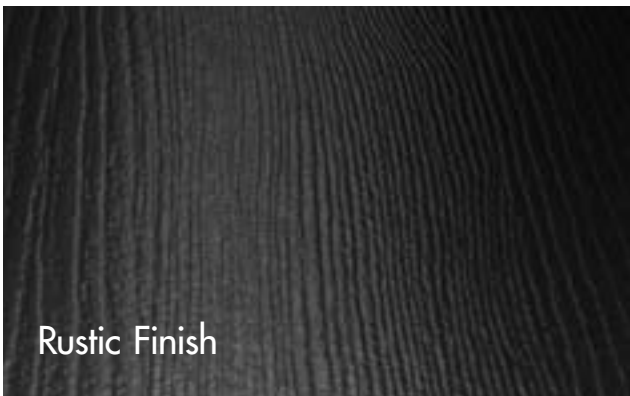

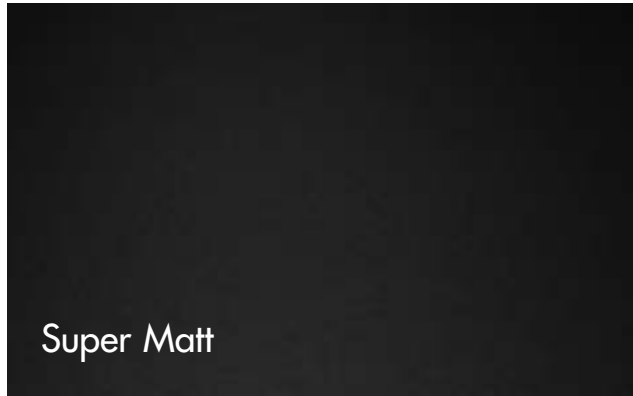

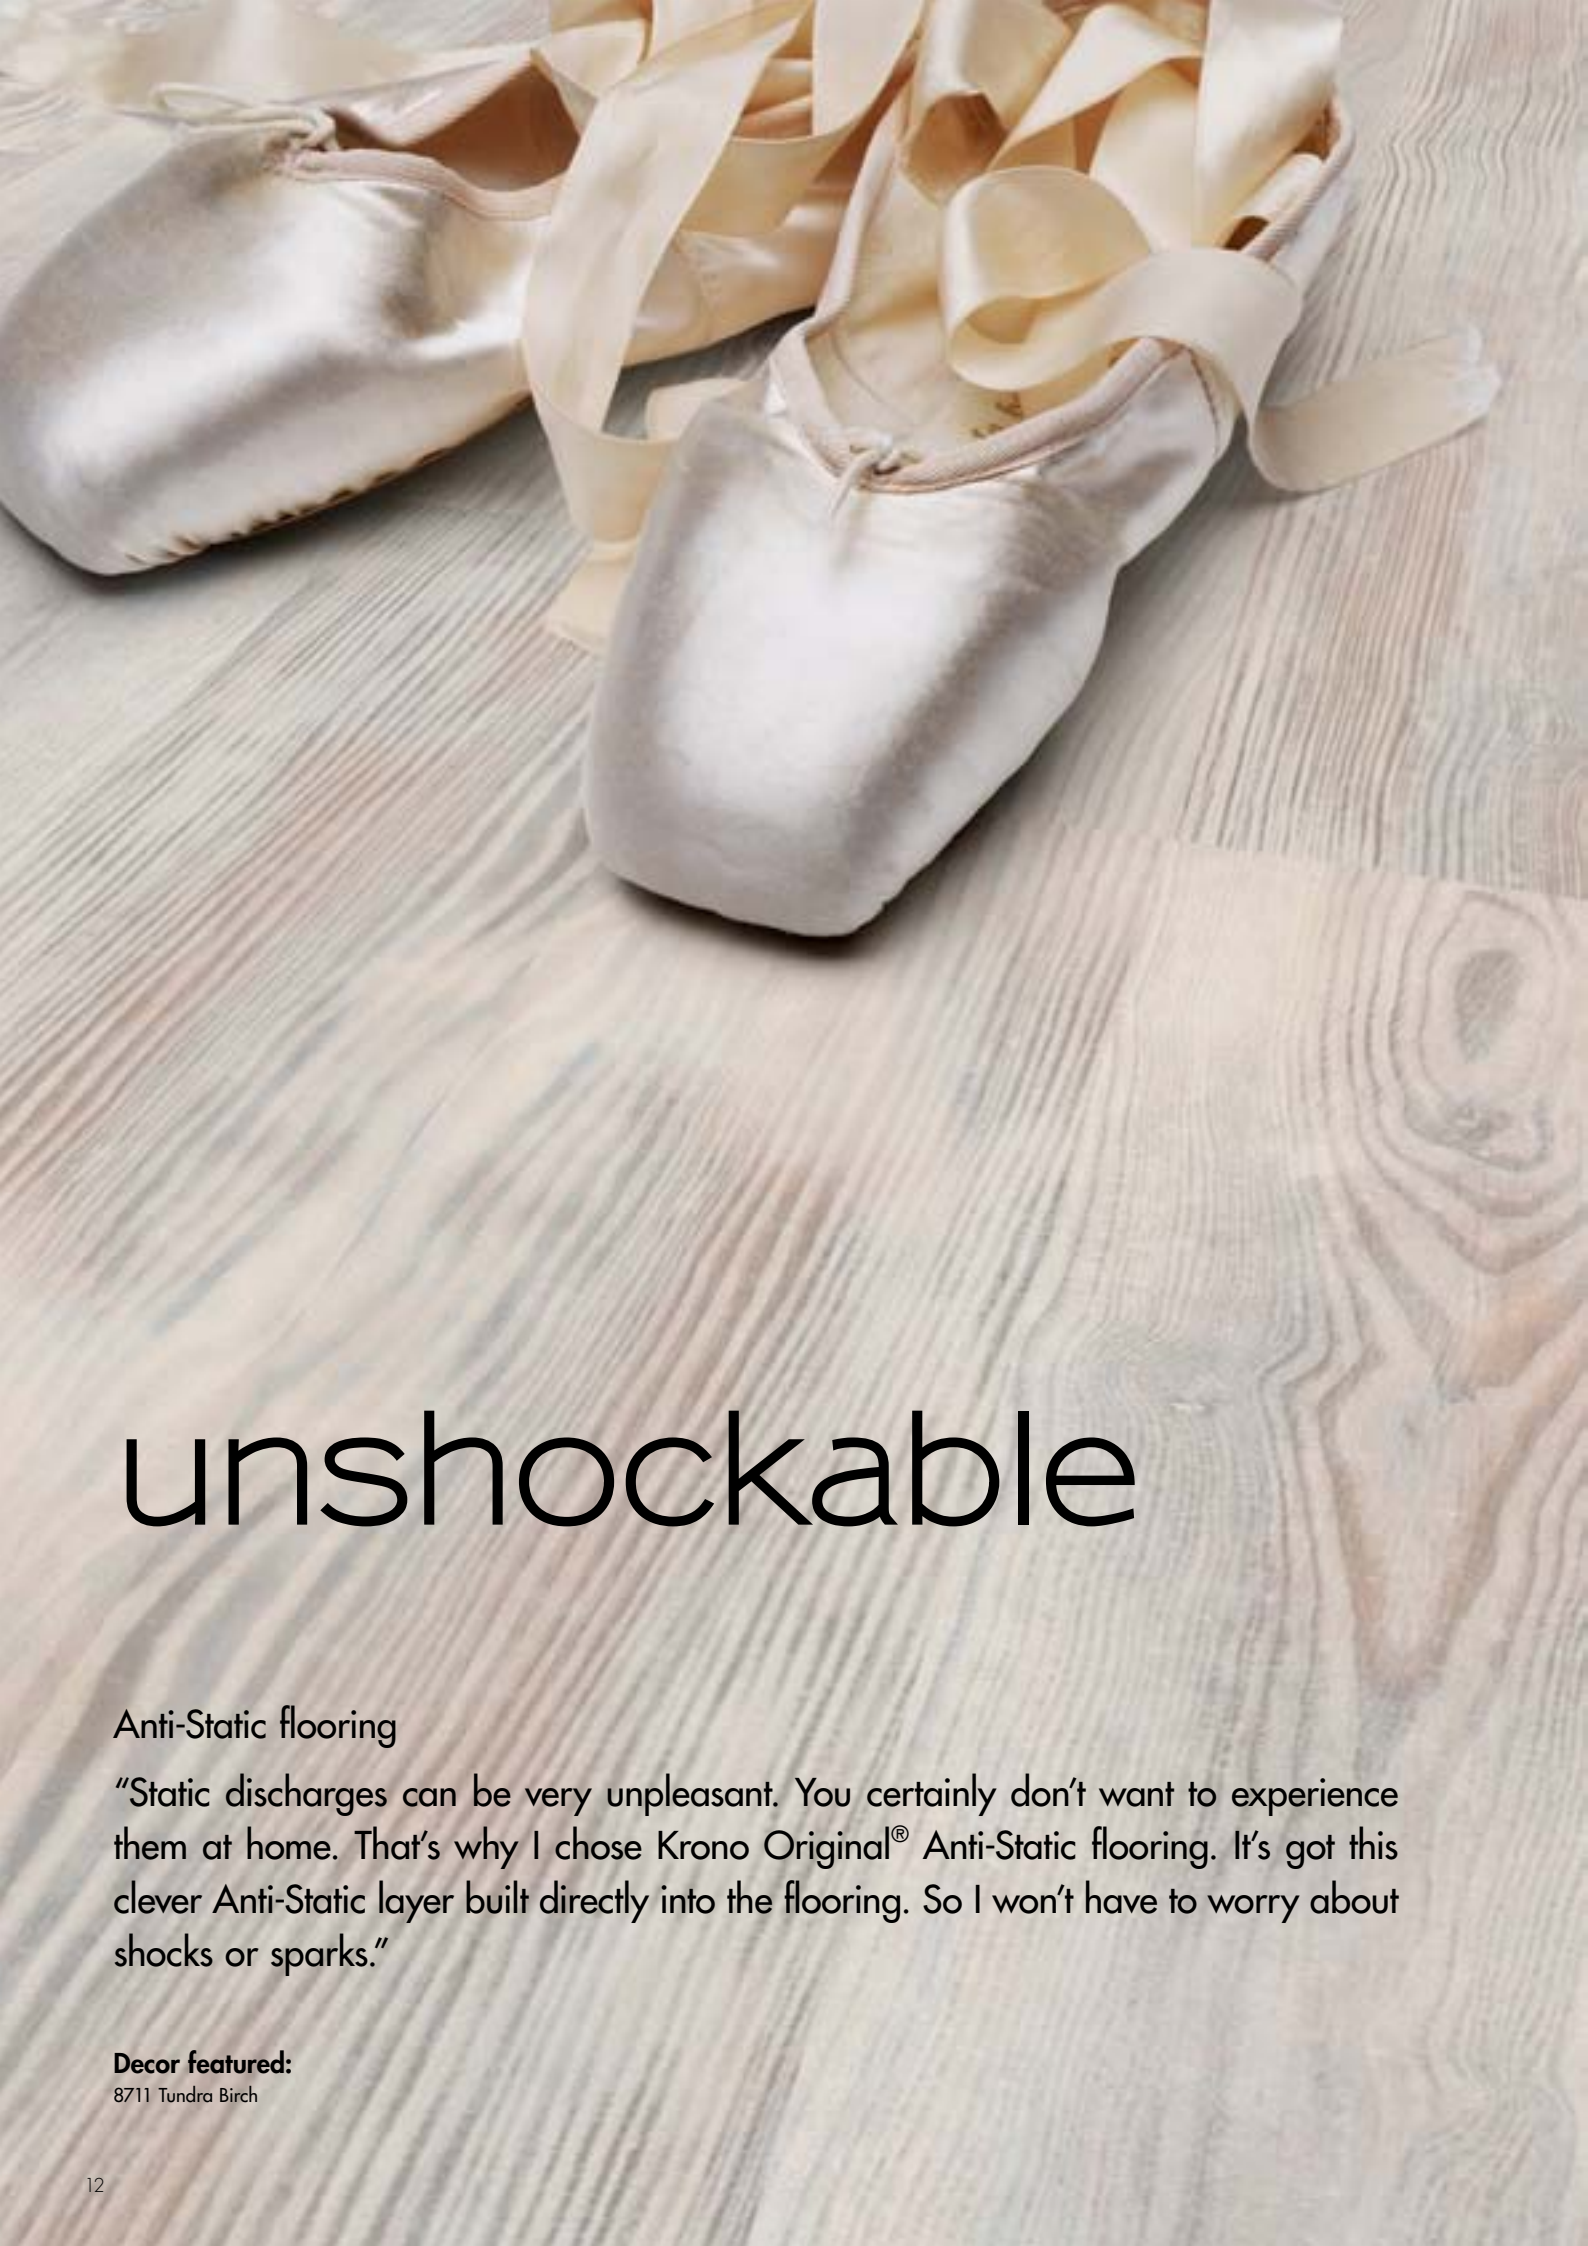

Our unique S.A.S. is an extremely thin coating made of high-tech materials. S.A.S. reduces sound, reverberation and vibration reflected into the room by an incredible 50%*. If you would like to install a floor in a heavy usage area e.g. a children's room or an office, then flooring with the S.A.S. is the perfect choice. It can handle all of the environmental stresses and strains and is also ideal for use with warm water based under floor heating.

* Conventional sound reduction with Noppa foam: 29.6 sone, sound reduction with S.A.S.: 16.1 sone. Sone is the unit of loudness on a scale based on subjective or perceived loudness. S.A.S. allows for a sound reduction of 13.5 sone, which is equal to a difference in sound perception between street noise and a whisper. Tested according to IHD standard 431, Institut für Holztechnologie Dresden GmbH, Inspection report: Entwicklungs- und Prüflabor Holztechnologie GmbH, Certificate No.: 266801

Structure & textures

Krono Original® flooring is a joy to live with. Our stylish portfolio of surface textures is created for longlasting comfort. Above all, Krono Original® floors are beautifully simple to keep clean, just a quick wipe whisks away allergy-causing dirt and dust.

unshockable

Anti-Static flooring

"Static discharges can be very unpleasant. You certainly don't want to experience them at home. That's why I chose Krono Original® Anti-Static flooring. It's got this clever Anti-Static layer built directly into the flooring. So I won't have to worry about shocks or sparks."

Decor featured:
8711 Tundra Birch

sound sense

"Nothing comes between me and my favourite sounds. I chose Krono Original® flooring with their brilliant S.A.S. Sound Absorb System. It reduces reflected sound by an amazing 50%, so I hear only what I want to hear and tune out the rest."

friend of the earth

"I won't compromise my principles. When I buy something, I want to be sure it comes from sustainable sources. So I checked out Krono Original® floorings and found out they use timber from responsibly managed forests. I trust them because, being one of the world's leading manufacturers of laminate flooring, they have a sustainability policy which commits them to reducing their impact on the environment. Which means I can update my home with renewable materials."

Accessories for the perfect finish

Skirting boards

Choose from a range of skirtings in various decors to suit all Krono Original® floors. Our easy fixing systems make it quick and simple to achieve a perfect installation.

K40 Clip-Strip 2600 x 40 x 22 mm
K58C Clip-Strip 2600 x 58 x 18 mm
K70 Clip-Strip 2600 x 70 x 21 mm
KL25 Strip (self adhesive) 2400 x 4 x 25 mm
K14 Strip 2600 x 12 x 12 mm

Corner pieces

Available for skirting systems K40 and K58C.

Outside corner
Inside corner
End piece

Mounting parts

Suitable for skirting K40/K58/K70.

15 meter skirting boards can be easily and professionally fitted with the contents of one packet. The set is supplied complete with screws and wall plugs.

Floor profiles

Krono Original® floor profiles enable you to create smooth crossovers between different rooms or floorings. End profiles also ensure perfect edge finishes.

Aluminium-profile

Movement Profiles: For level floorings. For screw or click-in fixing. Anodised in 3 modern colours or covered with high-quality wood decor films.

900 mm or 2700 mm

Aluminium-profile

Edge Beading: For clean finishes and joints at walls and other boundaries. For screw or click-in fixing. Anodised in 3 modern colours or covered with high-quality wood decor films.

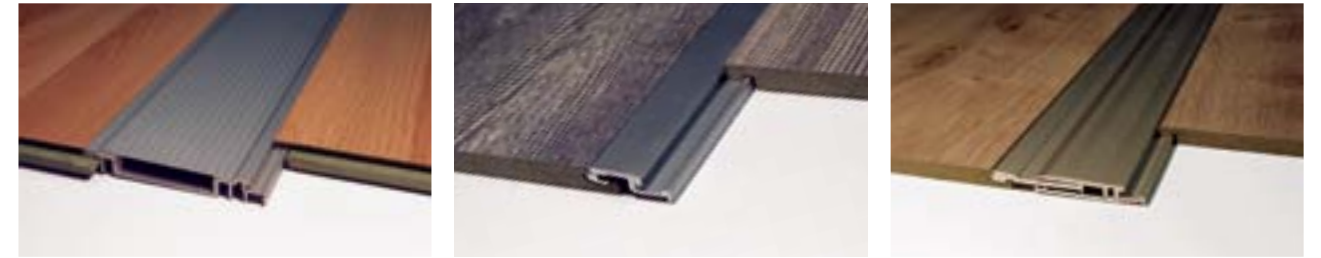

900 mm or 2700 mm

Aluminium-profile

Levelling Profiles: For different level floorings. For screw or click-in fixing. Anodised in 3 modern colours or covered with high-quality wood decor films.

900 mm or 2700 mm

Special Krono Original® profiles

Floordreams cable link floor profile set

The aluminium cable routing system, especially designed for Floordreams floors, is directly integrated in the flooring system. Easy to lay, no screws and no drilling necessary. No misalignment or level offset.

Design tongue edging

Simple decorative element for clicking into the Krono Original® Twin Clic joint. For separating different floorings or simply as a decorative element.

Flatlink

The profile, developed for the Krono Original® Twin clic joint, enables an expansion joint to be inserted in the flooring virtually flush with the floor and without annoying trip hazards caused by raised edges. Easy to lay, no screws and no drilling necessary.

Underlays

Depending on the situation in the room, attention must be paid to the correct underlay material when laying the floorings.

PUR 2.0 mat

The professional acoustic mat is made from PUR/mineral. Excellent walking (airborne) and impact sound values. High pressure stability and low thermal resistance.

XPS 5.0 panel

5 mm thick panel made of extruded polystyrene. Very good insulation properties and high impact sound reduction. Levels out unevenness of up to 4 mm.

PE foam

This foam is available in different thicknesses and roll lengths. Good impact sound insulation.

EPS 1.6 foldable insulation board

Combination of impact sound absorption and moisture barrier, made of expanded polystyrene and aluminum-damped PET-film. The coating is overlapping and self-adhesive, perfect for application with radiant heating.

Accessories

Further laying accessories, cleaning and reparation sets complete the whole range.

Cleaning agent

For sophisticated cleaning and care of Krono Original® laminate flooring, a very productive special agent is necessary. Makes the infiltration of water in the open joints more difficult and leaves – unlike parquet cleaning agents – no film behind which attracts dirt.

Radiator collars

These clever collars provide an elegant solution to concealing the movement joint space of radiator piping. As well as two roses, the pack contains matching adapters for 15, 18 and 22 mm pipe diameters.

Universal repair kit

Need to fix damages in laminate flooring quickly and with ease? No problem with our kit containing basic paste, stain and putty. Contents per tube: 50 g

Please see our accessory catalog for a comprehensive offering of moldings, profiles and accessories.

Sound absorb system

Reduces reflected sound by 50%

S.A.S. reduces reflected sound by a remarkable 50%. S.A.S. is extremely easy to lay and effortlessly smoothes over bumps up to 3 mm. And since it requires no additional insulation materials, it is ideal for use with all types of water-based underfloor heating systems.

S.A.S. Key Features

- Known as "the silent floor"
- 50% reduction in room sound thanks to a 0.3 mm thermoplastic coating
- No further insulation material required
- High heat conductivity
- Ideal for warm-water underfloor heating systems
- Ensuring more pressure stability thus protecting the profiles
